DETAILED ACTION

1. The Examiner's previous Office Action made final on (4/14/05) is vacated in response to telephone interview with Joshua M. Povsner on 6/13/05.

Allowable Subject Matter

2. Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance.

Prior art of record fails to teach or fairly suggest a control point for discounting a customer's billing for telephone calls completed in a wide area Centrex/PBX network that includes an abbreviated dialing plan, the control point receiving, from a switching point, a query that is generated based upon receiving a telephone call; the control point determining a call type code that is based upon the calling type and a called type and, when the called type code is eligible for discounting billing, generating a billing record of a first type for the call, the control point forwarding, to the switching point, the billing record of the first type for the call,

wherein the switching point generates a billing record of a second type for the call, and, when the call type code from the control point is eligible for discounted billing, the billing record of the first type is used to modify the billing record of the second type as recited in independent claims 1, 7, 13 and 16 and shown in figure 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
